

# AI roleplay showcase highlights

## Introduction to AI roleplays: Product demo

- Bodyswaps CEO Chris explained the difference between our back-end master prompt, and the no-code AI template that you see.
- He then walked through customising and playing our Job Interview Roleplay.
- Chris emphasised the pedagogical priorities underpinning our AI features: we're always focused on improving learning outcomes, ensuring inclusivity, and maintaining learner safety.

## Dr Anna Fairchild, Oaklands College

Anna shared how Oaklands College has embraced AI roleplays, highlights included:

- Widespread student engagement
- Integration into immersive environments, such as a 360-degree interactive spaces, bridging virtual debate with real-world communication. This included a Mars-themed debate on space colonisation vs. Earth sustainability, streamed from a small safe space to a large live audience.

Anna outlined plans to integrate AI roleplays further into course delivery, emphasising ease of setup and creative adaptability.

## Tong Du, Bow Valley College

Tong presented a classroom case study from her Early Childhood Education program. Highlights include:

- They conducted a debate on outdoor play in winter, for a group of learners aged 18–60+, many using AI & VR for the first time.
- Group debates forming organically around individual devices.
- Post-session analytics helped reflect on debate clarity and respectful discourse, enhancing collective learning.
- Tong ran a personal experiment making the adult AI avatar, Jeremy, emulate childlike behaviours, demonstrating AI's potential to simulate realistic early childhood scenarios and sparking ideas for future teaching applications.

## Looking to the future

Chris teased some upcoming releases for Bodyswaps, including:

- New templates
- The addition of “bodyswapping” to AI roleplay
- Multilingual support
