

# Bodyswaps

## Learner Pathways

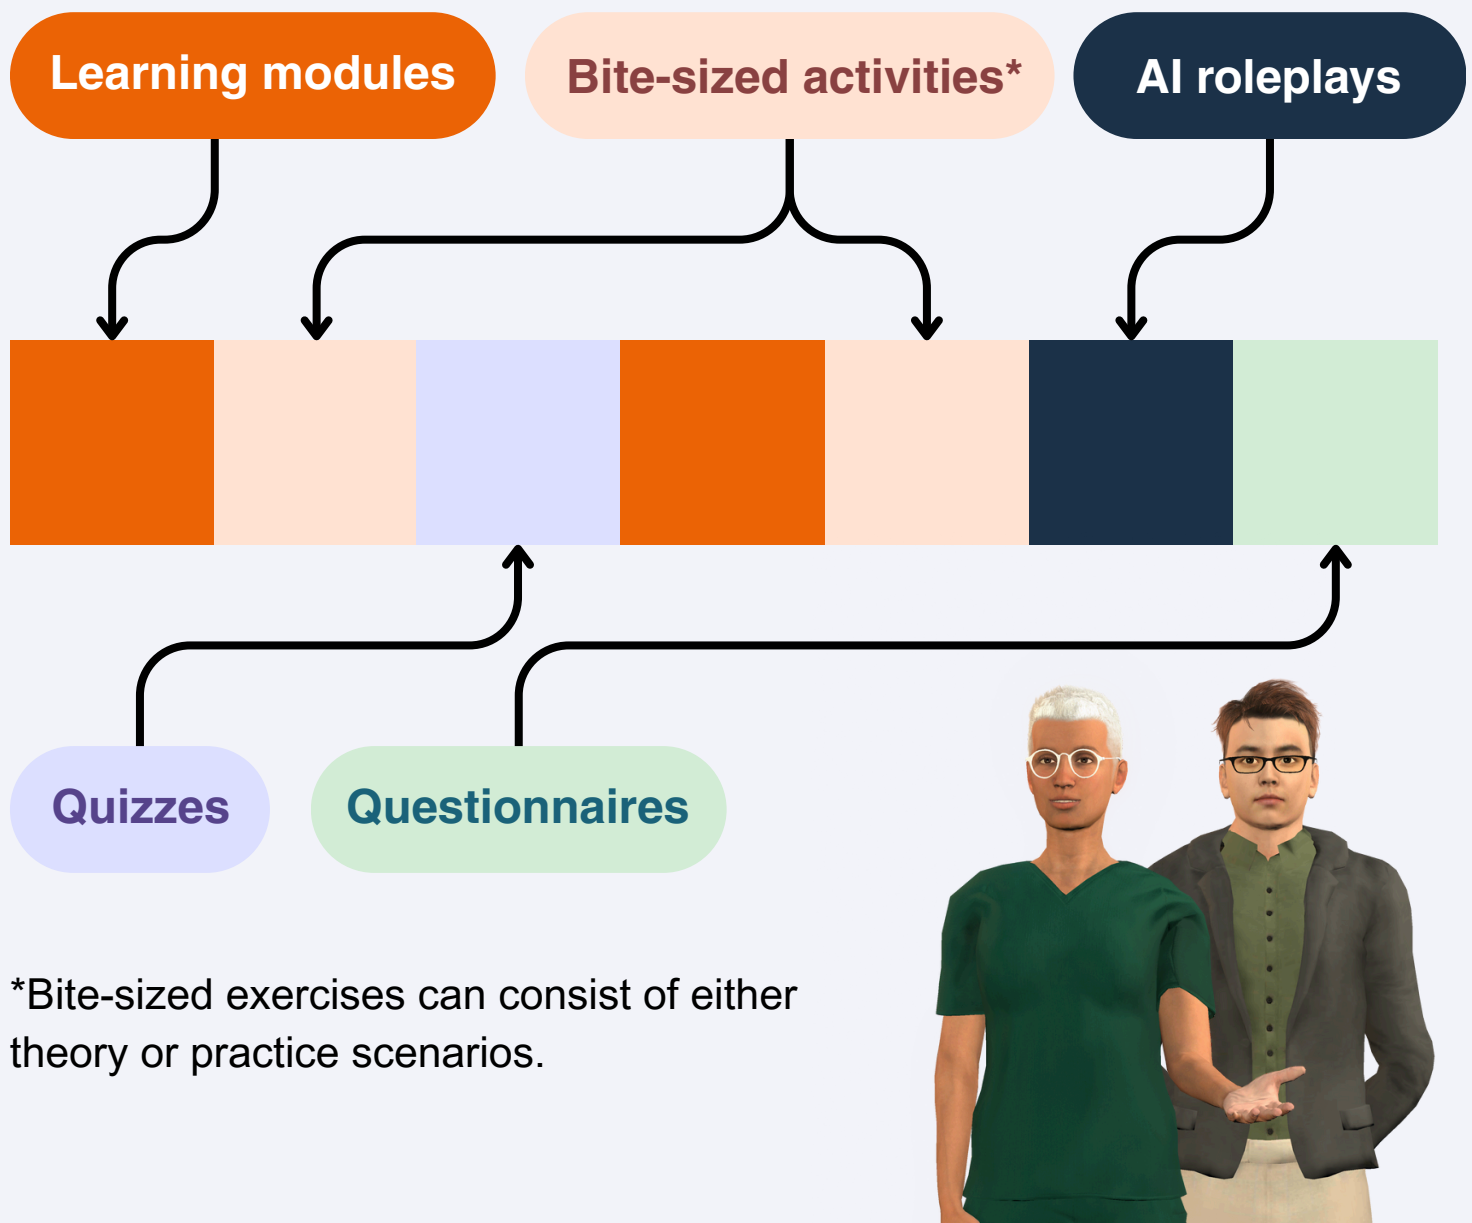

Structured, immersive learning experiences designed to enhance soft skills through scaffolded and AI-driven scenarios and assessment.

# Introduction to Pathways

Our learner pathway builder allows you to combine our scaffolded learning modules, bite-sized theory & practice exercises, AI roleplays, and assessments to create a pathway specifically for your learners. [Click here for our guide on building pathways.](#)

Or you can use one of the pre-built learning pathways, constructed by our Learning Designers for specific learning objectives and a variety of audiences. Read on to learn more about these pre-made pathways.

\*Bite-sized exercises can consist of either theory or practice scenarios.

# Navigating Difficult Patient Interactions

(60+ mins)

Our Learning Designers have scoped and created this pathway for different types of learners within healthcare: from students to working practitioners.

This pathway aims to empower learners to confidently identify signs of anger, stay calm under pressure, and effectively navigate difficult patient scenarios.

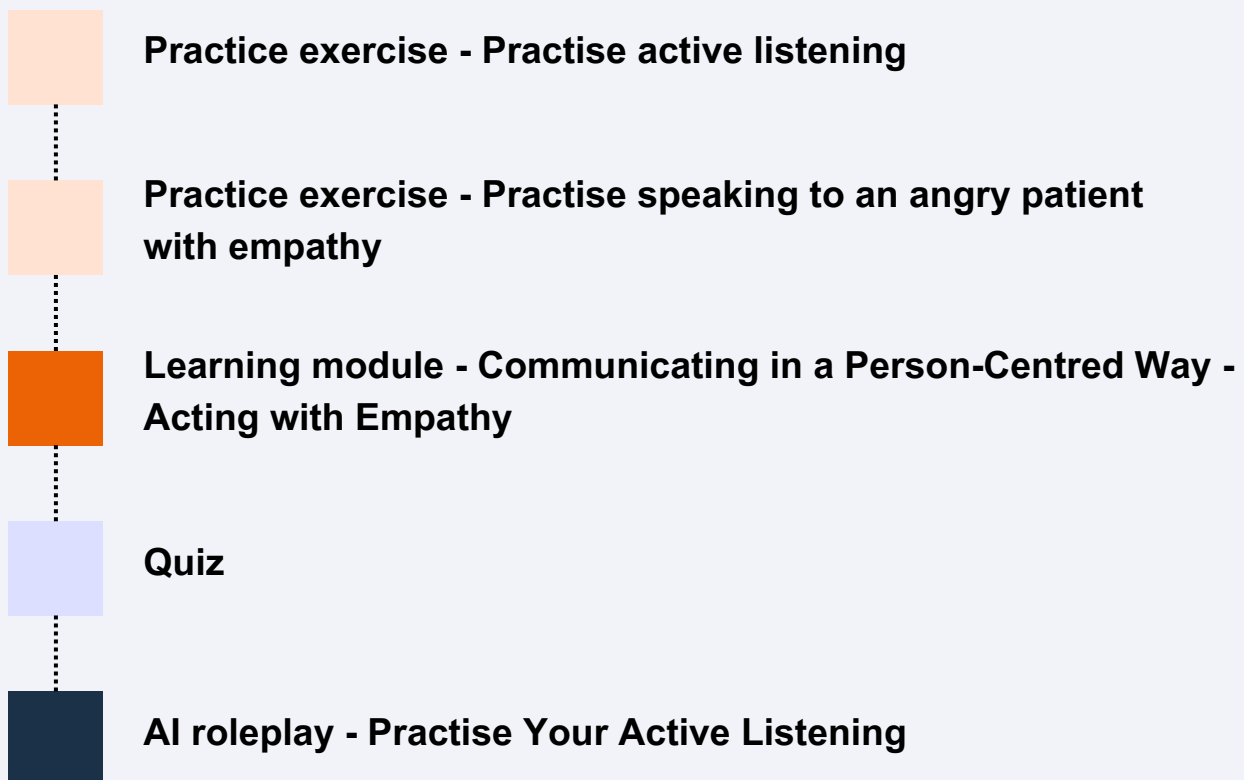

# Empathy-driven Communication

(60-90 mins)

Our Learning Designers have crafted this pathway for varying levels of learners within healthcare: from students to working practitioners.

This pathway gives learners the opportunity to practise person-centred communication skills, such as active listening, to help them demonstrate empathy and protect the dignity of individuals in their care.

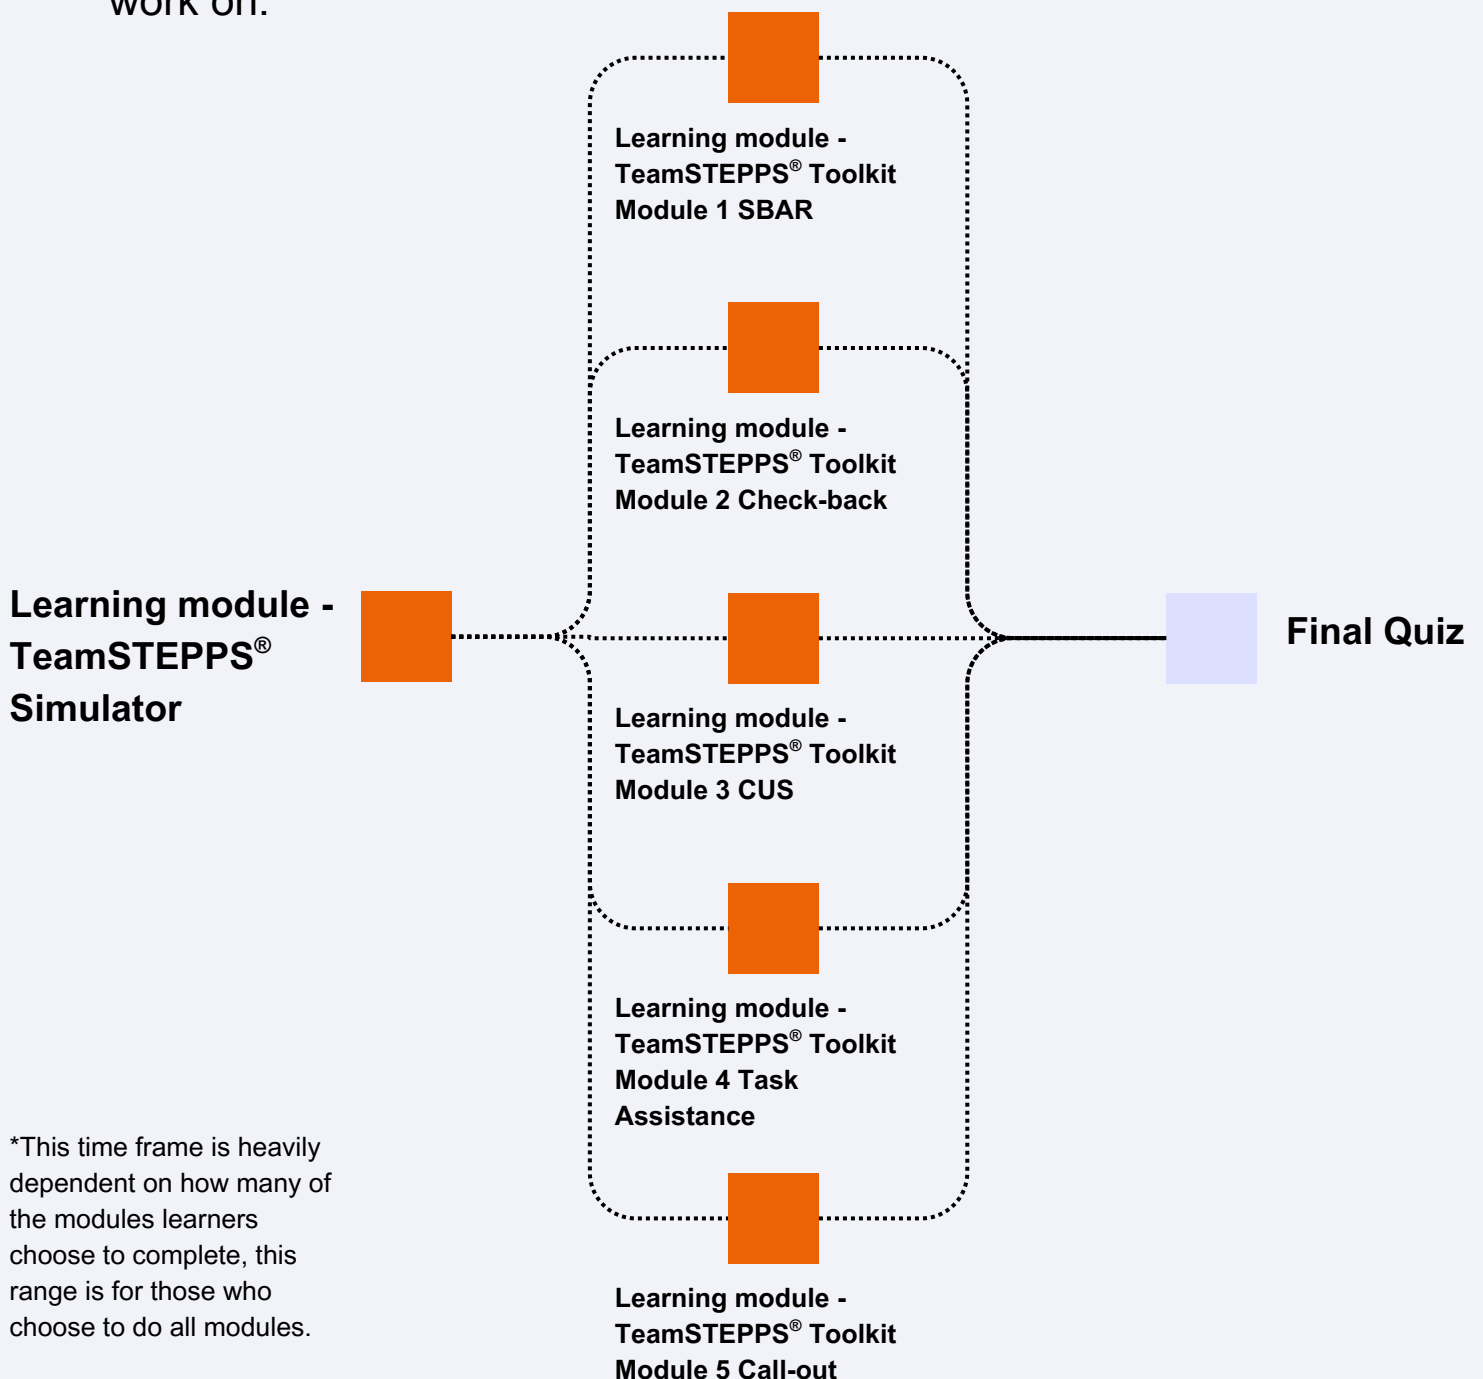

# Interprofessional Communication in Healthcare

(90-120 mins\*)

This pathway is built for student and practicing nurses. The communication skills taught within are transferable and can apply to other healthcare sectors.

This pathway is open navigation, starting learners with our simulator, where they can identify which skills they most wish to work on.

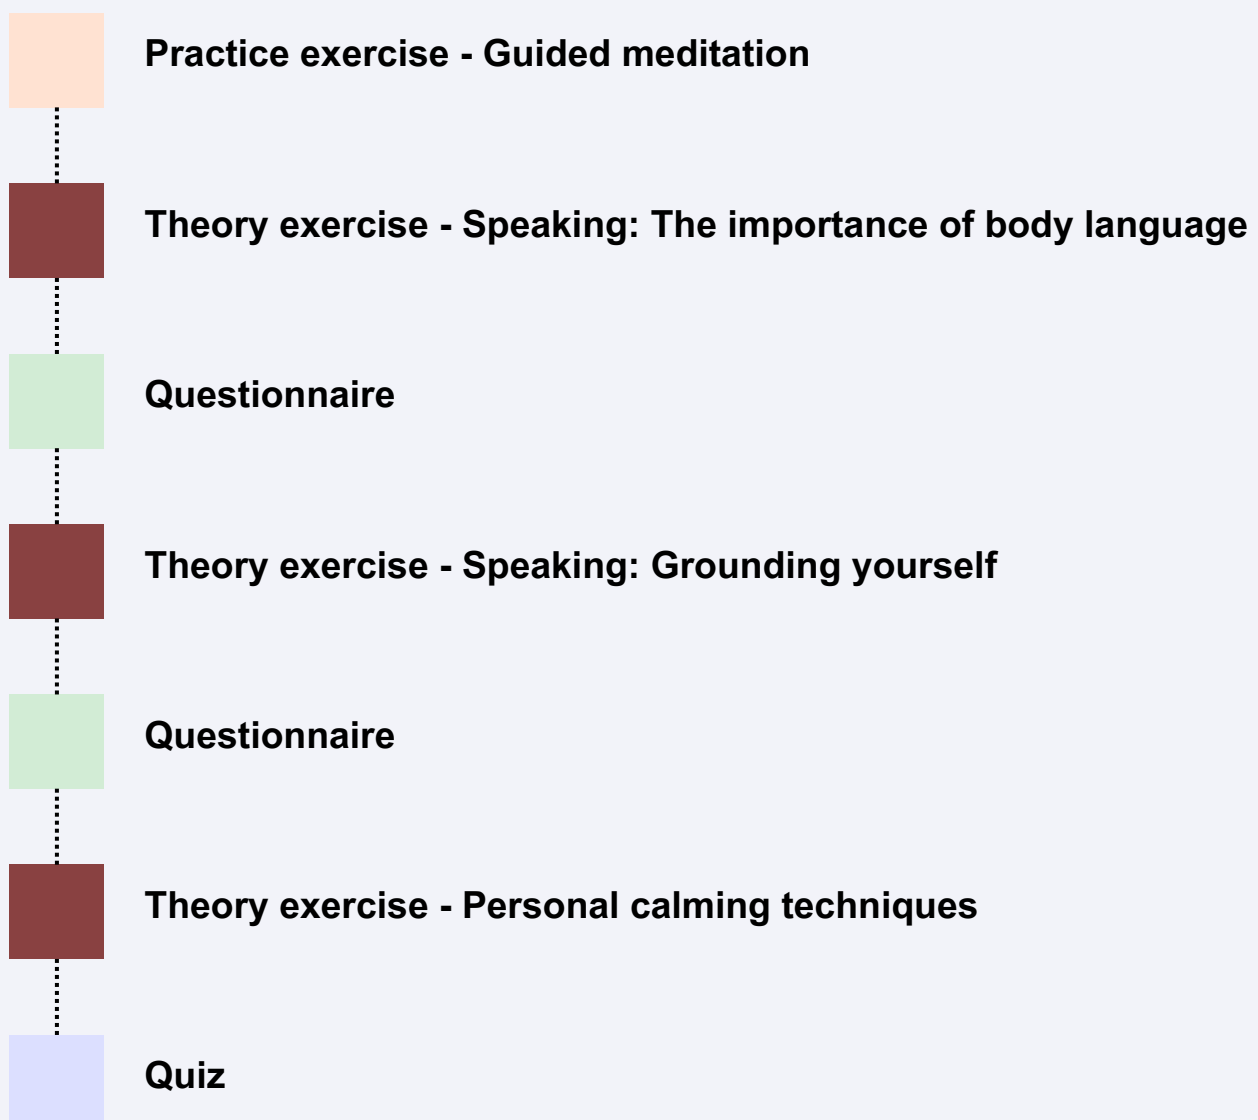

# Get Interview Ready Chapter 1: Feeling Calm & Confident

(~20 mins)

Chapter 1 of our four-chapter Get Interview Ready pathway helps learners to build self-confidence and composure in the face of anxieties or stage fright.

This pathway is intended for a range of job-seekers: from high-school & Further Education students to those returning to work after time away.

# Get Interview Ready Chapter 2: Speaking with Confidence

(~45 mins)

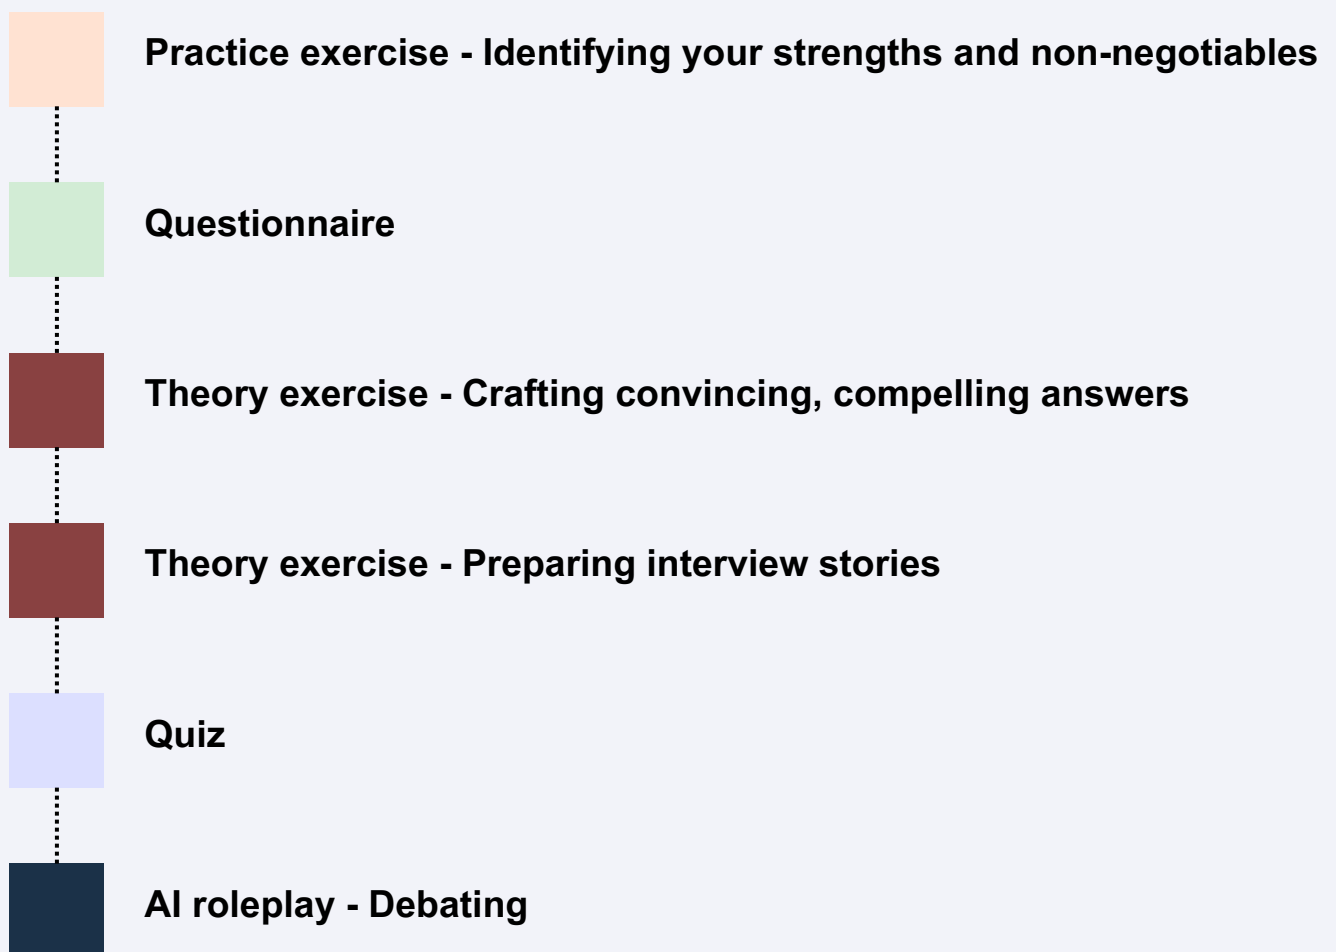

Chapter 2 of Get Interview Ready hones in on voice work and essential communication skills, helping learners foster confidence with public speaking and other forms of communication.

# Get Interview Ready Chapter 3: Crafting your Answers

(~20 mins)

Chapter 3 guides learners in defining their career motivations, preferences, and non-negotiables. Through a mixture of scenarios and formats, learners prepare to confidently communicate with their potential employers.

# Get Interview Ready Chapter 4: Landing the Job

(~25 mins)

Chapter 4 gives the learner a chance to shine and show off all they've learned by diving into our Job Interview Simulator.

**Theory exercise - Crafting answers with CAR**

**Theory exercise - Crafting answers with STAR**

**Quiz**

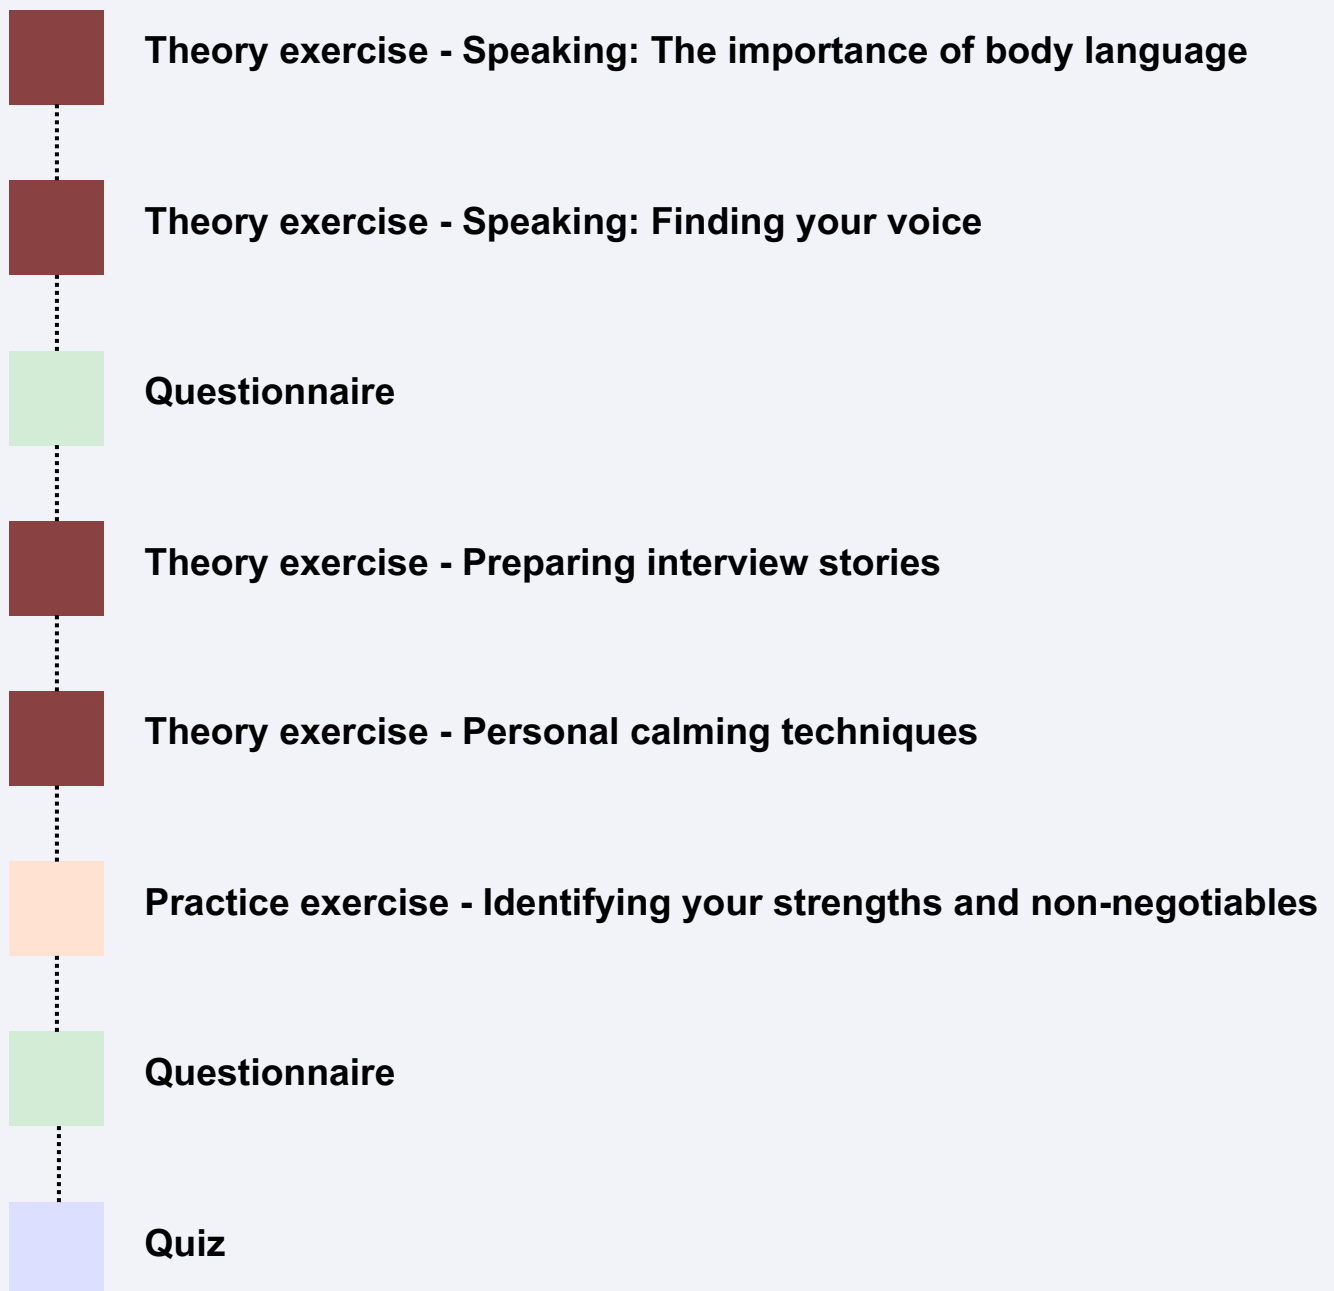

**AI roleplay - Job interview simulator**

# Emotional Intelligence & Personal Impact Chapter 1: The Basics of Self Awareness

(~50mins)

Chapter 1 of our four-chapter Emotional Intelligence pathway helps learners to understand the importance of body language, voice, and other habits, and how they impact others.

# Emotional Intelligence & Personal Impact Chapter 2: Speaking to Make an Impact

(~55 mins)

Chapter 2 helps learners discover how to express themselves clearly and with confidence, so they feel able to contribute effectively in professional settings.

# Emotional Intelligence & Personal Impact Chapter 3: Interacting with Others

(~45 mins)

Chapter 3 empowers learners with communication skills focused on fostering teamwork as well as help reading social cues to aid them in building relationships in the workplace.

# Emotional Intelligence & Personal Impact Chapter 4: Perceiving the Emotions of Others

(~30 mins)

Chapter 4 brings everything together, empowering learners with empathetic communication skills to help them build relationships, understand others' perspectives, and navigate professional environments with courtesy, contributing to a positive workplace culture.
